The Department of Obstetrics and Gynecology of Albany Medical Center, offers a wide variety of programs and services in state-of-the-art facilities designed with the unique physical and emotional needs of women in mind.

The Department brings together a highly trained and specialized staff of physicians, nurse practitioners and genetics counselors to provide comprehensive individualized health care to women of all ages.

Our team works together to provide a wide range of complex and highly individualized services including:

- Basic obstetrics/gynecological care
- High-risk prenatal care and delivery management
- Adolescent gynecology (ages 11-18)
- Peri-menopausal/menopausal care
- Urinary incontinence evaluation and treatment

Our patients have direct access, through our staff, to all the specialists and medical services of Albany Medical Center 24 hours a day, seven days a week.

INNOVATIVE TECHNOLOGY AND ADVANCED PROCEDURES

- Minimally invasive outpatient surgical procedures performed in our office
- Advanced laparoscopic surgery using the DaVinci robot
- Fetal echocardiograms
- High level ultrasonography services (first trimester screening, CVS, amniocentesis)
- Outpatient urodynamics studies and uroflow for treatment of urinary incontinence
